Grown Right — Dug Right — Packed Right

THANK YOU

1919 has passed forever, and the brighter days of 1920 invite us to renewed activities. It was a privilege to be intrusted with your orders during 1919. We hope we pleased you. We tried to render an honest service and we trust that our activities have not been a disappointment to you. You must be pleased with our service and our goods else we cannot prosper.

For 1920 we ask for your continued orders. Our stock shall be right. Our service quick and efficient and our prices as low as good plants should be sold.

To those who have never ordered from us, we ask that you give us a trial. We will try to give you quick shipment and honest goods at fair prices.

Remember, that Aurora products are **Grown Right—Dug Right—Packed Right.**

TERMS, ETC.

How to Ship—When ordering always specify whether we shall ship by freight or express. Also give us the route if possible. When no directions are given we will use our best judgment as to how to ship, but in no case will we be responsible after goods are consigned to purchaser. When losses or damage occur while goods are in transit, either from delay or otherwise, make claim at once to forwarding Companies.

Terms—Terms of payment are cash or security before shipment. Our usual terms of credit will be accorded to established firms, who if not known to us will please forward references. C. O. D. orders must be accompanied by one-fourth the amount of the order in cash.

Discounts—Three per cent discount is allowed on cash with order. Two per cent discount for cash in 10 days from date of invoice.

Prices—Prices are for the Spring 1920. This list supercedes all other lists and is subject to change without notice. Five plants of a variety will be supplied at the rate per ten—fifty at the rate per hundred—five hundred at the rate per thousand.

Claims—Claims for deduction must be made within one week after receipt of goods.

Packing—Prices in this list are Net; cost of Boxes, Bales, etc., will be added.

Guaranty—While we exercise the greatest care to have our trees and plants true to label, and hold ourselves prepared to replace, on proper proof, all that may prove untrue, we do not give any warranty expressed or implied, and in case of any error on our part, it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than the original price of the trees.

Boxing Charges—Charges are made as low as possible for well made boxes, paper lined.

SEED CORN

A few years ago we obtained two bushels of 90 day yellow corn. We found this to be a mighty fine kind. It was said to have come from North East Nebraska. We received no name for it but simply call it North East Nebraska. This year this corn ripened in 84 days. We have about eight bushels, and if interested in something for your own use it is mighty fine. Price, 25 cents per pound, 10 pounds \$2.25. One-half bushel \$7.00, one bushel \$12.50.

YOUNG STOCK FOR LINING OUT

The list of small stocks is made up under a special circular and if interested will be glad to quote on what we can do.

FRAME CUTTING

Read This Note Carefully

The following cuttings were rooted in sand during the summer of 1919, and will be available for shipment about March 15th, 1920. We are wintering these cuttings in order to put them into the hands of the buyer in good condition.

We recommend planting most varieties in beds, although if properly and carefully handled they will do well in the field.

We will book orders for these cuttings until February 20th, 1920, at which time orders will be filled by giving to each buyer his proportion of the cuttings according to the quantity ordered.

Orders received after that date will be subject to count after former orders have been filled.

Packing at cost, or packed free if cash accompanies orders.
